

World Class Data Center Hosting Infrastructure – 100% Uptime SLA

You've invested time and money on the hardware that powers our business. Now, find the perfect home for it - colocate your server in Atlantic.Net's Data Center. We offer a secure and robust platform for carriers, competitive local exchange carriers (CLECs), Internet service providers (ISPs) and bandwidth-intensive businesses to gain rapid access to superior network and facility resources.

SSAE 16 (SOC 1) TYPE II (Formerly SAS 70) Certified

Atlantic.Net Data Center Hosting Infrastructure is fully audited and SSAE 16 (SOC 1) TYPE II (Formerly SAS 70) certified. Our hosting operations are routinely and systematically inspected with focus on control objectives in the areas of organizational structure, governance, administration, physical/environmental controls, and physical/logical security.

Carrier Neutral Facility - Multiple Redundant Connections to the Internet Backbone

"After evaluating a range of managed hosting options to support our data operations, we chose Atlantic.Net because of their superior infrastructure and extensive technical knowledge." - **Jason Coleman, VP of Information Technology, Orlando Magic**

Features:

- ✓ Redundant UPS
- ✓ Advanced Fire Suppression System
- ✓ Offices and Conference Facilities
- ✓ Flexible Space Configuration
- ✓ Secure Cabinet and Cage Space
- ✓ Continuous Camera Coverage
- ✓ 24x7 Secure Entry
- ✓ Data-Grade HVAC
- ✓ Customer Staging Area
- ✓ Redundant AC/DC Power

Power:

- ✓ Power circuits are available in 120/208v AC and -- 48v DC
- ✓ The UPS system is deployed in a parallel redundant configuration with N+1 modules
- ✓ Generator backup for 100% of customer peak load with a fuel supply of 24 hours, with guaranteed refueling contracts in the event of an extended utility failure

Environmental Controls:

- ✓ High Volume Air Conditioning systems with 100 tons plus .01 tons per square feet. floor capacity
- ✓ Temperature: 73 Degrees +/- 6 throughout the facility
